PROJECTS / OPEN-SOURCE

COLLEGE-WEBSITE-CLONE | [LINK](#)

ReactJS, JavaScript, HTML, CSS

Developed a college website using React.js, featuring a simple landing page with a contact form. The contact form collects user details and messages, sending them directly to a specified email address using an email service. Implemented responsive design for seamless viewing on various devices, ensuring a user-friendly experience.

SHOPPING-WEBSITE | [LINK](#)

ReactJS, ContextAPI, NodeJS, ExpressJS, JavaScript, MongoDB

Shopping Website Development: Developed a comprehensive shopping website specializing in clothing for men, women, and kids. Implemented user authentication with login and logout functionality. Integrated an intuitive shopping cart feature to enhance the user experience. The website is connected to a robust backend to manage data and ensure seamless transactions. Utilized modern web technologies for a responsive and user-friendly interface.

IMAGICA-AI | [LINK](#)

NextJS, TypeScript, Tailwind CSS, ReplicateAPI, MongoDB

Developed an AI image generator using Next.js, TypeScript, and MongoDB. Implemented user authentication, allowing users to create and manage AI-generated images. Ensured a responsive and user-friendly design for an enhanced user experience.
