Experience

CodeTech IT Solution | Web Development Intern   **Mar'24 – April'24**

- **Completed a one-month virtual internship** as a web developer, focusing on hands-on web development projects.

- **Collaborated on developing and optimizing web applications** using technologies like HTML, CSS, and JavaScript.

- **Gained practical experience in front-end development**, including responsive design and API integration.

Projects

Project 1
- **E-commerce App Using MERN Stack**
  - **Developed a comprehensive shopping website** specializing in clothing for men, women, and kids.
  - **Implemented user authentication** with login and logout functionality to secure user data.
  - **Integrated a shopping cart feature** for an enhanced and intuitive user experience.
  - **Connected the website to a robust backend, ensuring seamless transactions and efficient data management.**
  - **https://github.com/abhishekrathore165/Shopping-website**

Project 2
- **College-Website-Clone**
  - **Developed a college website** using React.js with a focus on responsive design.
  - **Created and integrated a contact form** that collects and sends user details directly to a specified email via an email service.
  - **Prioritized user experience**, ensuring seamless functionality across various devices.
